SEPTEMBER/OCTOBER 2025

After a long summer vacation, the children returned to school. They reunited with their friends and got down to work.

The beginning of the year was punctuated by the great stories of Montessori pedagogy, observation of the surrounding nature, a school trip to the Château d'Astros, cooking workshops, apple sales, and moments of conviviality among all members of the school.

ECOLE MONTESSORI D'ANTIBES  
CLASS 6/12 ANS

## *Apple picking at château d'Astros*

This beautiful day in the organic orchards was an opportunity for the children to discover the botanical aspects of fruits and the different varieties of apples grown on the estate.

The children were able to pick apples from the trees, taste them straight away, and help each other carry the apples.

The 3-6 and 6-12 classes shared a pleasant moment in an idyllic setting.

*Selling apples: welcoming customers, serving them, weighing the apples, giving change... The children learned the basics of being a shopkeeper*

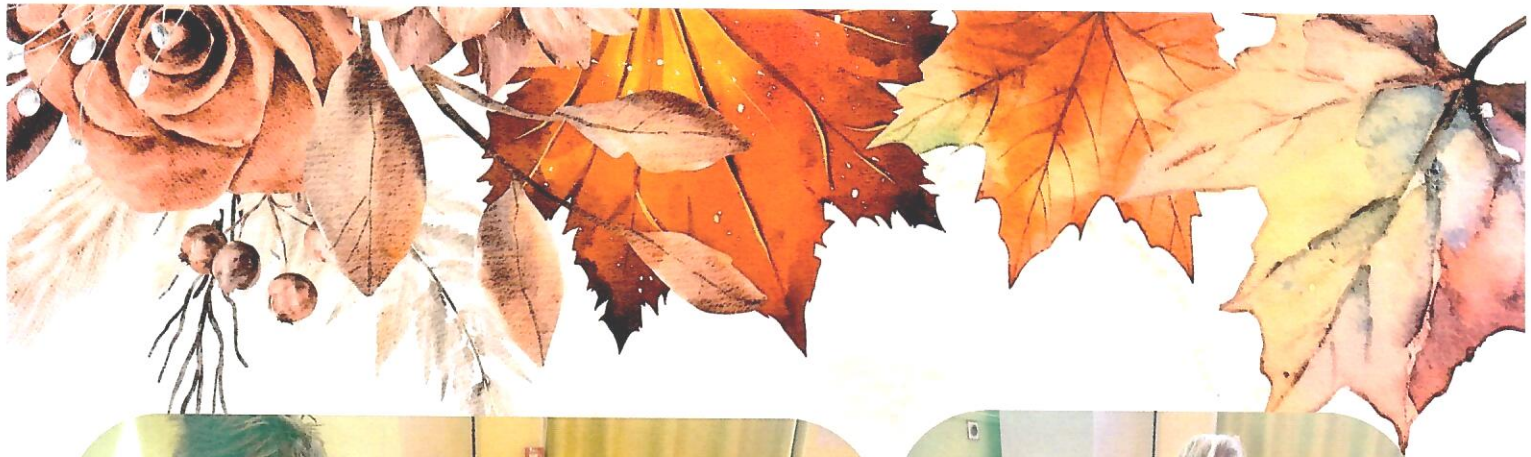

*Making crumble pie and apple cakes.*

*Apple juice production: the children loved assembling the extractor, peeling and pressing the apples.*

*At work in class*

*Parents breakfast. Children songs*

*Sharks match evening*

*Beach picnic at  
Salis Beach*
